

Tableau Desktop III -Advanced

Course#:DT3
Duration:2 Days
Price:1500.00

Course Description

This course is designed to provide you with the skills required to become a Tableau power user. The course is designed for the professional who has solid working experience with Tableau and wants to take it to the next level. You should have a deep understanding of all the fundamental concepts of building worksheets and dashboards, but may scratch your head when working with more complex issues.

Objectives

At the end of this class, you will be able to:

- Apply advanced calculations to gain additional insight into your data.
- Incorporate advanced chart types into your analysis.
- Apply advanced dashboarding techniques.
- Use calculations, parameters, and table calculations in tandem.
- Use Tableau techniques to address common business use cases.
- Format your visualizations and dashboards for maximum impact.
- Explore real world business scenario examples.

Audience

Prerequisites

This is an advanced-level class. Students must have a solid understanding of calculations in Tableau before attending this class. It is highly recommended that students have mastered Desktop I and Desktop II or the equivalent concepts and skills before attending Desktop III.

Content

This course includes a workbook containing key concepts on each topic covered and hands-on activities to reinforce the skills and knowledge attained.
